Long-term Care

A True Sense of Community

Situated on 15-acres in a beautiful park-like setting, Bell Trace offers the flexibility to design a retirement lifestyle that meets your needs now and in the future.

Our cottages and spacious apartments offer the privacy of independent living within a secure and vibrant community, while our assisted living apartments allow residents to enjoy living on their own with the comfort of having the support they may need close at hand.

For individuals recovering from surgery, illness or injury, our Health & Living Center features physical, occupational and speech therapy designed to help each patient restore function, build confidence and increase independence. And if long-term nursing care is needed, our team includes licensed nurses and certified nursing assistants who understand the healing potential of a kind word and sincere smile.

Family-first Senior Living

Family-first is our philosophy at Bell Trace, an approach that goes back to 1977, when CarDon & Associates was first established. As a member of the CarDon family of senior living communities, which now extends throughout south-central Indiana, Bell Trace encourages family members to become involved with each resident's personal care plan.

Throughout every level of care we offer, we ensure a better quality of life each day for our residents, by treating them as we would our own loved ones.
